Felt font notes - read at your own peril!

For those who don't know, Felt font is the script used to compose this message.

Notes that explain concepts in the text and translation issues come in Trebuchet or another very legible font.

But I also like writing sarcastic notes and pure rants in this series. Some of them may be rude towards it. Don't read them if you don't like this kind of note.

Don't ask me to suppress the notes, please. Complain in comment sections if you want, but the notes stay. Full stop.

Thanks for understanding.

## ***Redrawer needed for this!!***

Just four chapters left. The next one is translated and the remaining ones are easy to do.

Well, to be honest, I'm not sure this is going to in chapter 71. I'm translating this as we release, so I haven't checked whether the series is on hiatus, or whether it got axed. I'm guessing the second, but I will only be sure when I translate chapter 71 and see what they announce in it.

In any case: our redrawer, Bala, is again overwhelmed in real life and is unable to work on this for the near future at least. We had to resort to our Head Redrawer, Mil, for the last redraw of this chapter, but Mil is already busy with his own projects and putting out fires in other series. Our other redrawers, æmiz and Green Demon, are also busy. The only reason this chapter came so quickly is that it had no redraws in it.

In other words, if no one volunteers to help us complete this, the next chapters will come out as slowly as this one, because I'll get the redraws done in a per-page basis by whoever happens to be a little free over a long course of time.

And it's not because I hate the series that we'll lower our quality standards. I'm still translating this seriously, so applicants will either have to take a test or show us samples of past work that convince us they can bypass the test. You don't need to do the full test, though, do the Destroy and Revolution folder in this link: <http://goo.gl/8ug1bw>

Whether this will be completed soon or not is now heavily dependent on applicants.

## ***Redrawer still needed for Sprite!***

I won't mince my words: **Sprite**, with its combination of hand art and CG, plus the use of photographs to generate backgrounds, is one the hardest series for redrawing. Only aces among aces can do it. It has few redraws per chapter, but most are double spreads that need to be joined and extremely hard and time-consuming. Essentially, if you can redraw **Sprite**, you can redraw anything in B&W that may be thrown at you.

We cannot accept anything less than someone who passes our full test, including the extra difficulty pages, with flying colours: <https://goo.gl/qfnsc6>

Incidentally, the whole of the next volume is translated and being proofed now. The next chapter is being typeset. So you can wait until you croak for new releases, unless someone applies.

We're on a transition phase, so we might have other editor positions open in the near future. If you'd like to clean or redraw with us, keep track of our recruitment ads because I'll soon have a position on that.

You can post your application(s) at our recruitment thread at Batoto, or PM me (Kendama at Batoto, Wraith at deathtollscans.net), or post it in our home page in the Join Us section. Whatever. If you have the skills, we're willing to abide by your conditions.
